

## Timothy “Ed” Stacy

*Senior Watch Officer - Maritime Safety Watch – NGA*

- Mr. Stacy entered the maritime industry in 2010 as a third mate of unlimited tonnage in the Merchant Marines working on oil tankers. Shortly thereafter, he started with NGA in the Maritime Safety Office.
- Mr. Stacy has an extensive background in all matters of maritime safety information. He worked on numerous NGA maritime products, including standard, digital and electronic nautical charts, notice to mariners, and served as a watch officer for the broadcast warnings test.
- He collaborated on agency-wide modernization efforts of Foundation GeoINT data, specializing in the digital nautical chart.
- He currently is a subject matter expert developing a modernized navigational warnings system exploiting AAA technologies.
- He assists the NAVAREA IV/XII coordinator in all aspects of promulgating MSI within the United States NAVAREAs.
- He serves on the International Hydrographic Organization’s S-124 Project developing the future standard of navigational warnings.
- Lastly, Mr. Stacy is a graduate of the United States Merchant Marine Academy and has a degree in Marine Transportation.
