

## Timothy “Ed” Stacy

National Geospatial Intelligence Agency

- Mr. Stacy entered the maritime industry in 2010 as a third mate of unlimited tonnage in the Merchant Marine working on oil tankers. Shortly thereafter, he started with NGA in the Maritime Safety Office.
- Mr. Stacy has an extensive background in all matters of maritime safety information. He worked on numerous NGA maritime products, including standard, digital, and electronic nautical charts, notice to mariners, and served as a watch officer for the navigational warning desk.
- He collaborated on the NGA-wide modernization efforts of Foundation GeoINT data.
- He currently leads all operational aspects of the NGA’s Maritime Safety Watch.
- He currently serving as the Deputy NAVAREA IV/XII Coordinator representing the United States in the IHO Worldwide navigational warning service subcommittee and other international working groups.
- He serves on the International Hydrographic Organization’s S-124 Project Team developing the future standard of navigational warnings.
- Lastly, Mr. Stacy is a graduate of the United States Merchant Marine Academy and has a degree in Marine Transportation.
