

## Mr. Jean-François Coutu

Manager Informatics, Integrated  
Technical Service  
Canadian Coast Guard

- Jean-Francois Coutu has been a maritime telecommunications engineer and architect for more than 20 years with the Canadian Coast Guard.
- Before becoming an engineering manager, he contributed to the deployment of e-navigation and AIS within Canadian waters.
- He has extensive knowledge of AIS, VDES and ship communications systems and has been participating to IALA committees for the last 12+ years.
